## JAMIE DOUTHITT | RESEARCH OPERATIONS ASSOCIATE | BIO

Before coming to Hoosier Oncology Group, I worked for Community Health Network for 17 years; first starting out working as an administrative assistant for a neuropsychologist at a brain injury clinic. During that time at the brain injury clinic, I had the opportunity to assist with a multi-center brain injury study and became interested in research. After 6 years at the brain injury clinic, I had the opportunity to move to oncology research at Community East Hospital. Most of the studies I worked on were with cooperative groups (ECOG, NSABP & HOG) doing regulatory. During this time I was also a board member of the Community IRB.

In 2001, I moved to The Indiana Heart Hospital doing mostly regulatory duties in cardiovascular research. I also did invoicing to sponsors, the accounts payable/accounts receivable for the department and a variety of administrative functions. Within the last year I was lead coordinator for a carotid stent study and co-coordinated a study collecting outcomes on young men and women who were diagnosed with myocardial infarction.

On a more personal level, I have been married to my husband, Tom, for 19 years and we have two children. Tyler is 18 and is a freshman at Marian College studying intermediate education and is also on the Marian tennis team. Andrea ("Andi") is 13 and is in the 8<sup>th</sup> grade at Holy Spirit School on the Eastside.
